

United Way of Southwestern Pennsylvania

EMPLOYEE SPOTLIGHT

JULES KOEHL

What is your name, title, and department?

Jules Koehl, Special Projects Coordinator, Community Impact

Can you tell me about your role at United Way?

I've been at United Way for a year now. I first started working as the Finance and Administration Assistant right out of college. I took on this new role, as the Special Projects Coordinator, in April and it's been great so far. I spend most of my time on United Way's Digital Inclusion project, Community Food Solutions and Emergency Financial Assistance for college students. I also get to work with everyone in the Community Impact department on a variety of different projects.

What do you love best about working here?

I love working at United Way because everyone on the team is so dedicated to its mission. There is a lot to learn from our communities and United Way is intentional in making sure we are listening and understanding the needs and wants of the people in regions we serve.

What are your interests outside of work?

I love to listen to music and go to concerts. I'm always looking for a new artist or band to become obsessed with. I also practice yoga at a local studio multiple times a week - it's become essential in helping me clear my mind.

Who is your favorite artist, musician or author?

Just walking past my cubicle makes this pretty clear... it's David Bowie!

SPEED ROUND: CHOOSE ONE!

Morning person **or** night owl?

Jules says: *I love getting up while the world is still quiet.*

Hotdogs **or** hamburgers?

Ice cream: chocolate **or** vanilla?

Dog person **or** cat person?

Netflix & chill **or** Mini-marathon?

Jules says: *Movie nights are the best! My favorites are usually either a cult classic from the 80s or something seriously scary.*
